These recommendations are a guide. Different strains of bird, housing and health status will all affect feed requirements.

Other products

Mixed Corn

To be fed in conjunction with other feeds at a maximum rate of 25g/day.

Oyster Shell

An excellent source of slow release calcium, necessary for optimum shell quality, especially in older birds.

...your first choice

Combining exceptional local knowledge, the customer service and attention you expect from a business based on family values and the outstanding technical expertise you would demand from a leading manufacturer of quality animal feeds, Harpers Feeds are trusted by farmers across the South West.

We know all farms have different requirements so pride ourselves on having products to suit all systems and for all species, whether ruminant or monogastric. We manufacture compounds and blends and supply straights, supplements and speciality feeds as well as forage seeds and additives. Feeds are available in an extensive range of physical forms and pack sizes to give exceptional choice.

All manufactured feeds are supplied as fixed formulations so you know the next load will be the same as the last, ensuring consistent performance.

Whatever your requirements, Harpers Feeds can provide feeding solutions to deliver outstanding performance.

Poultry feeds

Orders: 01409 255 333

Focused on poultry nutrition

Harpers Poultry and Traditional Turkey Feeds are formulated from high quality, traditional ingredients to produce good quality pullets and optimum egg production as well as well-finished table birds and turkeys.

Good physical quality ensures dust-free crumbs and pellets to improve feed intakes and growth rates. Each diet is specially formulated to provide a well balanced supply of energy, protein, minerals and vitamins to meet nutrition needs and ensure productive, healthy birds.

All our feeds are fixed formulation for consistency and we produce crumbs, 3mm pellets and meals to suit all systems. All feeds are available in 20kg bags.

The poultry range

Harpers Poultry Starter Crumb

A highly nutritious and palatable crumb formulated for layer replacements, meat birds and water fowl such as baby ducks and geese. Balanced mineral and vitamin content makes it an ideal starter feed.

Harpers Poultry Grower Pellets

A highly palatable pellet designed to follow on from Starter Crumbs. Introduce it over a week by mixing in with Starter Crumb.

Poultry Rearer Finisher Pellets

Formulated to provide an excellent finish for table birds or as a third-stage rearer for layer replacements.

Country Dozen Layer Pellets or Meal

A premium ration to give optimum egg production, good egg size, strong shells and good yolk colour. Designed to be fed adlib or together with mixed corn as an evening feed. A good, general all-purpose choice.

Typical Analysis					
Product	Protein	Oil	Ash	Fibre	Methionine
Country Dozen Layers Meal/Pellets	17%	2.8%	12.4%	4.3%	0.40%
Poultry Starter Crumbs	20%	3.6%	5.6%	3.3%	0.45%
Poultry Grower Pellets	18%	3.6%	5.4%	4.4%	0.36%
Poultry Rearer/Finisher Pellets	15.5%	3.7%	5.1%	4.6%	0.33%

Feed Guide - 2 stage rearing programme

Starter Crumbs	0 - 8 weeks
Grower Pellets	9 - 16/18 weeks

Feed Guide - 3 stage Ducks & Geese

Starter Crumbs	0 - 3 weeks
Grower Pellets	4 - 5 weeks

Rearer/Finisher	7 - finish

These recommendations are a guide. Different strains of bird, housing and health status will all affect feed requirements.

The turkey range

ACS – Avatec premix is included in feed for birds up to 12 weeks old to aid the prevention of Coccidiosis. It should not be used in conjunction with any other coccidiostat. Withdrawal period is five days.

Turkey Starter Crumbs with ACS

Formulated to get day old poult off to a flying start

Turkey Rearer Pellets with ACS

The perfect ration to follow-on from Starter Crumbs

Turkey Super Grower Pellets

For birds 9-12 weeks old feed Super Grower Pellets with ACS. At 12 weeks, switch to Super Grower pellets without ACS as coccidiostats must be withdrawn at 12 weeks. Feed from weeks 13-16.
